Mumbai, India | +91 92246 48203 | aniketkakad8282@gmail.com | [Portfolio](#) | [GitHub](#)

EDUCATION

Bachelor of Engineering in Computer Engineering

Watumull Institute of Engineering and Technology, Ulhasnagar

Nov 2022 – May 2026

CGPA: 7.05/10

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, C

Frontend: HTML, CSS, React, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Socket.IO, WebRTC

Database: MongoDB, PostgreSQL, MySQL, Redis

Tools: Git, GitHub, Docker, GitHub Actions

Core: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Operating Systems

EXPERIENCE

Software Development Intern

Jun 2026 – Aug 2026

Maharashtra Softwares Research and Development Center (MSRDCENTER)

Zenius AI | MERN Stack, WebRTC, Socket.IO

[Live Demo](#) | [GitHub](#)

- Built a real-time e-learning platform using WebRTC and Socket.IO, enabling live video classrooms with screen sharing and live chat.
- Developed an AI quiz generator using the Gemini API, extracting questions from uploaded course documents automatically.
- Implemented CSRF protection, input sanitization, and URL validation to prevent NoSQL injection and SSRF attacks.
- Built student, instructor, and admin dashboards with course enrollment, progress tracking, and automatic attendance logging.

PROJECTS

CaptionFlow – AI Video Captioning Platform

React, Node.js, Express, FFmpeg, Groq Whisper API

[GitHub](#)

- Developed a video captioning platform using Groq Whisper and Sarvam AI speech-to-text APIs, supporting multilingual caption generation with automatic fallback between providers.
- Built a word-level timestamp alignment algorithm using LCS matching, keeping captions in sync when transcripts are edited or translated.
- Used FFmpeg to export videos with styled subtitles and high-quality encoding, supporting multiple aspect ratios (9:16, 16:9, 1:1) for shorts, reels, and landscape video.

LinkGuard – URL Shortening & Analytics Platform

Java, Spring Boot, React, PostgreSQL, Redis, Docker

[Live Demo](#) | [GitHub](#)

- Collaboratively built a URL shortening platform using Spring Boot, React, and PostgreSQL, adding Redis caching that cut redirect response time to under 100ms.
- Implemented JWT authentication with refresh tokens and role-based access control for user and admin accounts.
- Added privacy-friendly visitor analytics, rate limiting, and a QR code generator for each short link.

Loopora – AI-Powered Interview Preparation Platform

Next.js, TypeScript, MongoDB, Google Gemini API

[Live Demo](#) | [GitHub](#)

- Developed an interview preparation platform using Next.js and MongoDB, serving 500+ questions with written answers and video explanations from curated sources.
- Built resume-based personalization using the Gemini API, generating tailored answers based on the user's background and caching results to reduce repeated API calls.
- Implemented file-signature validation and content-safety scanning for resume uploads, enforcing a 3-tier role system across API routes.

CERTIFICATIONS & TRAINING

- Oracle Cloud Infrastructure (OCI) 2025 Certified AI Foundations Associate (Sep – Oct 2025)
- AI/ML Virtual Internship – EduSkills, Google for Developers & AICTE Initiative (Jul – Sep 2024)
- AI/ML and Soft Skills Training – TNS India Foundation (Jun – Sep 2025)
- Web Development Training: HTML, CSS, Bootstrap, PHP, JavaScript, React – Internshala (Dec 2023 – Feb 2024)
